

SKILLS AND VALUES

DESIGNING EFFECTIVE AND INNOVATIVE SOLUTIONS

Multi-disciplinary teams for joint development: functional analysis studies, design, simulation calculations, prototypes and validation tests.

Integration of several functions and technologies for efficient solutions.

Innovation: we develop our skills every day to provide you competitive solutions.

QUALITY & SUPPLY CHAIN MANAGEMENT

Daily shipments of millions of parts worldwide

Supply-chain management to deliver the right quantity at the right time at the right place

Full dedication of our employees to quality and customer satisfaction

100% control of critical and safety requirements
ISO 9001, ISO/TS 16949

INDUSTRIAL PERFORMANCE

Materials and surface treatment **laboratories and research centres.**

Technological expertise to improve production efficiency: cold heading, hot forging, plastic injection, stamping, precision machining, assembly.

Continuous technological development.

Fully vertically-integrated process from raw materials and tooling to final surface treatment.

RESPECT FOR HUMAN RIGHTS AND ENVIRONMENTAL FRIENDLINESS

Sustainable activities to improve environmental protection
ISO 14001, OHSAS 18001

CLIPPED SOLUTIONS

THE SUSTAINABLE LINK FOR YOUR SUCCESS

lisi AUTOMOTIVE
LINK SOLUTIONS FOR INDUSTRY

LINK SOLUTIONS FOR INDUSTRY

LISI AUTOMOTIVE, a division of the LISI Group and a world leader in assembly solutions, designs and manufactures high added-value link solutions:

THREADED FASTENERS

Industrial excellence: competitive, optimised factories that incorporate all the processes in forging and metal working make LISI AUTOMOTIVE a major supplier of threaded fasteners (screws, nuts and washers).

CLIPPED SOLUTIONS

Constant innovation: Our engineers continuously design and develop innovative clipped solutions to meet our customers' specific needs. LISI AUTOMOTIVE is a reliable partner that offers the most effective solutions (plastic, metal and assemblies).

SAFETY MECHANICAL COMPONENTS

Technology driven: our know-how in forging, machining, assembly and 100% control processes make LISI AUTOMOTIVE a worldwide recognised supplier of safety mechanical components (brake systems components, occupant safety systems, tube connectors, ball joint pivots, seat mechanism components, etc...).

LISI AUTOMOTIVE = ADD TO MULTIPLY

LISI AUTOMOTIVE's skills rely on companies, such as FORMER, KNIPPING, KKP, MECCANO, NOMEL and RAPID, whose reputation, experience and know-how have left a strong footprint on the industry.

All these abilities add up to multiply LISI AUTOMOTIVE's technological skills to meet your needs more effectively.

OUR CUSTOMERS

LISI AUTOMOTIVE is a reliable partner recognised by the major players (OEM's, suppliers and distributors) of automotive, industrial vehicles, building and house appliances.

CLIPPED SOLUTIONS FOR YOUR SUCCESS

Customer proximity : multi-disciplinary teams with a full understanding of your need in order to give the right answer.

Lasting and available : wide range of fasteners giving you quick solutions.

Innovative strength : with our complementary technologies (forging, plastic injection, stamping, assembly), combined with fundamental material knowledge, we increase our skills day by day to provide you with competitive solutions that combine a host of functionalities.

Reactivity: from the beginning of your project to serial deliveries. To design, to develop and to produce plastic and metal clip solutions as well as assembled systems to give you a competitive edge.

CLIPPED ASSEMBLY SYSTEMS FOR TUBES AND WIRING HARNESSES

CLIP-ON SCREWS AND NUTS

CLIP-ON ASSEMBLIES AND RIVETS

BLANKING PLUGS AND CABLE GROMMETS

AXES FASTENERS
