

PRESS RELEASE

LISI AUTOMOTIVE NOMEL ("NOMEL") and the American company Rotor Clip are joining forces to strengthen their presence in the European market for spring washers and rings

05/09/2022 - LISI AUTOMOTIVE (LISI Group) is pleased to announce the conclusion of a commercial partnership between its subsidiary "NOMEL", known for its catalog and technical washers, and the American company Rotor Clip, which specializes in elastic rings. This partnership was signed between the two companies on May 6, 2022 in Somerset, New Jersey USA.

By joining their commercial forces, "NOMEL" and Rotor Clip will strengthen their presence and promotion in the European industrial market and among the major fastener distributors.

"The two brands, both well known and well established in Europe, will offer advice and technical expertise to their customers, as well as a wide range of locally manufactured products," says Christophe Martin, General Manager of Business Development at LISI AUTOMOTIVE, emphasizing that "this collaboration will guarantee increased stability of the supply chain to a European market undergoing profound change.

About both companies:

"NOMEL, a subsidiary and recognized brand of the LISI Group's Automotive Division (LISI AUTOMOTIVE) offers a complete range of washers, axle stops, nuts, some of which have now become household names, such as Circlips®, Twolok® or Grifaxe®.

Founded in 1957 in the United States, Rotor Clip offers a complete line of shaft stops, circlips, spiral rings, wave springs and self-compensating clamps designed to meet the growing specific needs of the automotive, aerospace, electronics and general industrial sectors.
